

JOB DESCRIPTION: QUALITY CONTROL INSPECTOR

Overview

The primary responsibilities of the Quality Control Inspector position include daily product inspections and classifications, daily and weekly reporting, and regular performance testing and process control and adhering to government standards.

Responsibilities

- Inspection & classification of finished products each day.
- Maintain product and material inspection, and test data daily.
- Complete weekly production and second reports required to ensure accurate inventory.
- Monitor & maintain a documented program of quality assurance, inspection and control for the manufacturing process that meets the requirements of the Ontario Concrete Pipe Association (OCPA) Plant Prequalification Program, and CSA A23.4 Plant Certification.
- Monitor and maintain inspection, measuring and test equipment required to ensure the manufacturing process meets or exceeds the industry standard.
- Provide a record of material & product test performance & non-conformity.
- Inspect in-process products for special requirements and applications specified by engineering, including, fittings and hardware.
- In-process inspections as requested by production and/or shipping including gaskets, coring, scribing, rework, repairs, and confirmation of special applications.
- Report on product performance testing and process control, in meetings and written reports, including testing summaries and interim reports, as outlined in the OCPA Plant Prequalification Program, and Compliance Reports.
- Be part of the continuous improvement teams and direct quality programs to reduce non-conformance and discontinuity.
- Special projects as required by, and agreed upon with Management, including any changes or revision to current responsibilities.

Qualifications

Education Required:

- Post- secondary education as a civil engineering technologist

Specific Experience

- Willingness to work in an industrial plant environment and out in the elements.
- Able to climb ladders and move around operating machinery in a safe and proficient manner.
